The **Undergraduate Scholarship** has traditionally been the backbone of the Foundation—the primary reason the Foundation was first set up. Intended to benefit Malaysian students from low-income families, the Foundation believes that providing scholarships is about providing opportunities – giving a chance for students to have the higher education necessary to come into their own and be the next generation of leaders and captains of industries.

More than RM 3,000,000 is allocated each year for scholarship grants for both these programmes. We also strongly and actively encourage students living with disabilities to apply.
