### COMPANY OVERVIEW

OYL Group is a member of Daikin Group. We are the world's largest air-conditioner manufacturer. OYL Group is engaged in the business of heating, ventilation, air-conditioning, refrigeration and air filtration. We own several major International brand names including McQuay (heating, ventilation and air-conditioning), American Air Filters (air-filtration, machine intake, and air pollution control), J&E Hall (refrigeration) and Acson (our home-grown air-conditioning brand).

To entrench its leadership position in the air-conditioning industry in Malaysia, OYLM has dedicated its extensive resources to research and development of innovative, high efficiency Heating, Ventilation and Air- conditioning (HVAC) technologies that support the environment and provide reliable solutions for customers worldwide.

O.Y.L. Research & Development Centre Sdn Bhd was established 1998. It is located next to our manufacturing plant in Sungai Buloh. It is the largest air-conditioner R&D center in South-East Asia, with a total built up area of 7,340 square meters. To date, a total of US\$13mil has been invested in the building and research facilities.

In wake of our expansion, we invite dedicated, competent, dynamic and young individuals to be part of team to support our operations locally and abroad.
