- Digital Signal Process

- Cycle Time Management
- Failure Mode Effect Analysis (FMEA)
- Kaizen
- Poka Yoke
- Statistical Process Control (SPC)
- Basic Soldering
- Basic Transistor 2

Funded by Perbadanan Tabung Pembangunan Kemahiran

TRAINING AVAILABLE IN KUALA LUMPUR

Dear all,

I am pleased to share with you the information on the Industrial Skills Enhancement Program (INSEP) for Manufacturing Process.

This program is fully funded by Perbadanan Tabung Pembangunan Kemahiran (PTPK) and managed by the Penang Skills Development Centre (PSDC). The objective of this program is to provide candidates with relevant industrial skill sets and competencies in the job market in the Manufacturing industry. Qualified candidates will receive a monthly cash allowance of RM500.00 from PTPK throughout the 3 months training and 3 months job attachment period. The INSEP program is open to all Malaysian graduates below 35 years old who are currently unemployed on a permanent basis. Training is available in Kuala Lumpur.

The next intake will start on [15 April 2015](#), seats are limited, and it's on first come first served basis.

To register please log on to http://www.psd.org.my/html/sub_programs.aspx?ID=6836&PID=6851
