

Established in year 2003, **Fireworks Solutions** is an award winning technology design and innovation firm that specializes in mobility and internet based business solutions.

We embraced the terms like e-commerce, mobility, e-learning and sales force automation. Our working environment and culture were casual but we have the passion of a startup company. Our growth forecast is in the double digits level for the next few years.

Fireworks Solutions is highly awarded, notably the Multimedia Super Corridor status & the ASEAN-BAC Malaysia Business Award 2013 for our technologies and creative innovations.

In line with our expansion and continue adoption with new technology, we seek qualified and talented applicants for the following position (intern):

- **Mobile Application Developer (iOS / Android)**
- **Web Application Developer**
- **User Interface Designer / Graphic Designer**
- **Project Management**

This is an opportunity for the intern to take on projects from requirements gathering, through development, to implementation. The intern must be comfortable working both as a team member and independently

On job training will be provided.

We offer 5 working days per week from 9.00am to 5.30pm

Interested candidates are invited to send in with your resume and portfolio to :- [admin@fireworks.my](mailto:admin@fireworks.my)

Please indicate your subject ie : Internship – Mobile Application Developer (iOS)
